**REASONS FOR ALLOWANCE**

4. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "forming a configuration message comprising settings information for arranging data synchronization of at least one application between a first database, in a terminal, and a second database, associated with a synchronization server, said

settings information comprising settings of at least the second database" as recited in independent claim 1 and similarly recited in independent claims 10, 12, 14, 20, 22, and 45.

The remaining claims are dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
